

January 1, unless extended or terminated sooner by the Captain of the Port New York. The safety zone prevents all vessels from transiting this area of the East River and is needed to protect mariners from the hazards associated with fireworks exploding in the area.

This permanent regulation provides notice to mariners that this event occurs annually at the same location, on the same day and time, allowing them to plan transits accordingly. The effective period of the safety zone will be announced annually via Safety Marine Information Broadcasts and locally issued notices.

#### Regulatory Evaluation

This regulation is not a significant regulatory action under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that order. It has been exempted from review by the Office of Management and Budget under that order. It is not significant under the regulatory policies and procedures of the Department of Transportation (DOT) (44 FR 11040; February 26, 1979). The Coast Guard expects the economic impact of this regulation to be so minimal that a full Regulatory Evaluation under paragraph 10(e) of the regulatory policies and procedures of DOT is unnecessary. The safety zone closes a portion of the East River to vessel traffic annually from 11:30 p.m. on December 31, until 12:45 a.m. on January 1, unless extended or terminated sooner by the Captain of the Port New York. Although this regulation prevents traffic from transiting this area of the East River, the effect of this regulation is not significant for several reasons: the duration of the event is limited; the event is at a late hour; pleasure craft and some commercial vessels can take an alternate route via the Hudson and Harlem Rivers; the event has been held annually for the past several years without incident or complaint; and the extensive, advance advisories which will be made. Accordingly, the Coast Guard expects the economic impact of this regulation to be so minimal that a Regulatory Evaluation is unnecessary.

#### Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), the Coast Guard must consider whether this regulation will have a significant economic impact on a substantial number of small entities. "Small entities" include independently owned and operated small businesses that are not dominant in their field and that otherwise qualify

as "small business concerns" under Section 3 of the Small Business Act (15 U.S.C. 632).

For reasons set forth in the Regulatory Evaluation, the Coast Guard expects the impact of this regulation to be minimal. The Coast Guard certifies under 5 U.S.C. 605(b) that this regulation will not have a significant economic impact on a substantial number of small entities.

#### Collection of Information

This regulation contains no collection of information requirements under the Paperwork Reduction Act (44 U.S.C. 3501).

#### Federalism

The Coast Guard has analyzed this action in accordance with the principles and criteria contained in Executive Order 12612 and has determined that this regulation does not raise sufficient federalism implications to warrant the preparation of a Federalism Assessment.

#### Environment

The Coast Guard has considered the environmental impact of this regulation and concluded that under section 2.B.2.e. of Commandant Instruction M16475.1B, revised 59 FR 38654, July 29, 1994, it is categorically excluded from further environmental documentation. A Categorical Exclusion Determination and Environmental Analysis Checklist are included in the docket. An appropriate environmental analysis of the fireworks program under the National Environmental Policy Act will be conducted in conjunction with the marine event permitting process each year.

#### SUPPLEMENTARY INFORMATION:

##### I. Background and Purpose

Title V of the 1990 Clean Air Act Amendments (sections 501-507 of the Clean Air Act ("the Act")), and implementing regulations at 40 Code of Federal Regulations (CFR) Part 70 require that States develop and submit operating permits programs to EPA by November 15, 1993, and that EPA act to approve or disapprove each program

within one year after receiving the submittal. The EPA's program review occurs pursuant to section 502 of the Act and the part 70 regulations, which together outline criteria for approval or disapproval. Where a program substantially, but not fully, meets the requirements of part 70, EPA may grant the program interim approval for a period of up to two years. If EPA has not fully approved a program by two years after the November 15, 1993 date, or by the end of an interim program, it must establish and implement a Federal program.

On September 13, 1995, EPA proposed source category-limited interim approval of the operating permits programs submitted by ADEM and JCDH, and interim approval of the program submitted by the City of Huntsville. See 60 FR 47522. The EPA received public comments from four organizations on the proposal and responds to those comments in the discussion below. The EPA has also compiled a Technical Support Document (TSD) which describes the operating permits program in greater detail. In this document EPA is taking final action to promulgate source category-limited interim approval of the operating permits programs submitted by ADEM and JCDH, and interim approval of the program submitted by the City of Huntsville.

#### II. Final Action and Implications

##### A. Analysis of State Submission

The EPA is promulgating source category-limited (SCL) interim approval of the operating permits program submitted by ADEM on December 15, 1993, as supplemented on March 3, 1994; March 18, 1994; June 5, 1995; July 14, 1995; and August 28, 1995. The EPA is promulgating SCL interim approval of the operating permits program submitted by JCDH on December 14, 1993, as supplemented on July 14, 1995. The EPA is promulgating interim approval of the operating permits program submitted by the City of Huntsville on November 15, 1993, as supplemented on July 20, 1995. The State and local programs substantially, but not fully, meet the requirements of part 70 and meet the interim approval requirements under 40 CFR 70.4.

##### B. Response to Comments

In this document, EPA discusses in detail all comments received concerning the proposal notice. The EPA responds to each comment and provides clarification where requested. Significant changes to EPA's opinions stated in the proposal notice include the
